ab07folio.vercel.app | linkedin.com/in/aaryash-bhagankar-50079230a

CSE undergraduate building tools that recognize hand gestures, connect investigation records and analyze research data. Seeking an applied ML research internship.

EDUCATION

B.Tech in Computer Science and Engineering Expected 2029

SRM Institute of Science and Technology, KTR Campus | **CGPA: 8.42/10**

ML PROJECTS & RESEARCH

MORSELAB | Python, scikit-learn, MediaPipe, Arduino

Turns webcam hand gestures into Morse code using an Arduino LED.

- Compared 4 classifiers (KNN, SVM, Random Forest and MLP) using 21 hand landmarks from MediaPipe.
- Added hold-and-release checks to stop the same gesture from sending repeated signals.

Supercapacitor Materials Study | Literature review and data audit

Reviews ML methods for predicting capacitance from electrode composition.

Advisor: Dr. Preethiya | SRMIST

- Prepared an 81-reference review and checked 22 measurement curves for missing or invalid data.

SOFTWARE PROJECTS

RED Justice | Prisma, SQLite, OCR

Links people, documents and bank transactions to help trace fraud.

- Name-matching component test: F1 score 0.818 on 172 synthetic name pairs.

RadixOS | Electron, Node.js, SQLite | GitHub

Runs multiple AI assistants on separate copies of a coding project.

- Supports 2-8 parallel assistant tasks and saves results and project history locally.

INTERNSHIP EXPERIENCE

Cyber Crime Investigation & Digital Forensics Intern

Cyber Police Station, Police Commissionerate, Nashik City | 17 Jun - 18 Jul 2026

- Built an internal fund-flow tracing tool for National Cyber Crime Reporting Portal (NCRP) fraud investigations; extended the concept into RED Justice.
- Received a formal Letter of Recommendation from the Senior Police Inspector for technical ability and professional contribution.

TECHNICAL SKILLS

Programming: Python, C/C++, JavaScript/TypeScript, SQL.

ML / data: scikit-learn, NumPy, OpenCV, MediaPipe.

Tools: Git/GitHub, Linux, SQLite.

ACHIEVEMENTS

Smart India Hackathon (SIH) 2026: Internal hackathon finalist.

H7CTF 2026: Finalist (team rank **9th**); **Yukthi CTF:** Finalist.

kBxAc CTF 2026: 23rd of 290 teams; **Securinets 2026:** 77th International, 87th overall.
